## CERTIFICATE OF CONFORMITY

### Food contact

Product/grade: *Siliconised bleached baking paper*  
*(Eco Bake, Silidor/Parchment/TOP and Single Proof)*

The above product, submitted by Nordic Paper, Säffle and Greåker, was examined in order to establish whether this paper quality is suitable for use in packages or other products intended for contact with foodstuffs.

As an independent party we have judged the suitability in respect to composition and purity referring to the following regulations:

- Recommendations BfR XXXVI and BfR XXXVI/2 (Issue 80 August 2013) issued by the health authorities (Empfehlungen des Bundesinstitutes für Risikobewertung), Germany
- FDA, CFR (Code of Federal Regulations) 21- Food and drugs, USA (April 2013), § 176.170 "Components of paper and paperboard in contact with aqueous and fatty foods" and § 176.180 "Components of paper and paperboard in contact with dry food"
- Regulation (EC) 1935/2004 on materials and articles to come into contact with food, article 3

Certificate no. 2014-0070-4

- French Decree n° 2007-766 with supplement of decree n° 2008-1469
- Directive 94/62/EC on Packaging and packaging waste

Based on the analytical results from testing the paper grade mentioned above, and specifications, supplied by Nordic Paper, Säffle and Greåker this paper grade is judged to meet the requirements of the regulations referred to above for direct contact with dry, moist, and fatty foodstuffs. The specifications cover the raw materials, the production aids and the special paper refining agents used in the production process.

This means that this paper grade may safely be used in packages or other products intended for direct contact with dry, moist, and fatty foodstuffs, as well as for baking purposes in conventional ovens up to a temperature of 220°C.

This certificate has a validity of 2 years.
